

Sharpen and fine-tune your skills in Social Science Research

Certificate in Research Methodology

The Marga Institute is now launching a combined basic theoretical and practical course to sharpen research skills in social science research. The value of this course is that it packs into 15 sessions the knowledge that is required to design, formulate, execute, process findings and write an analytical report to address any social research question that arises in the area of social science work. At the end of the course you will be better equipped to carry out social science research and venture out into a career in this area.

For whom: Practitioners, academics and researchers in the field of Social Science

Date of commencement: 22nd February 2010

Duration: 8 weeks

Lectures held on: Mondays & Thursdays from 3.30 pm to 6.30 pm

Venue: Marga Auditorium

Course fee: Rs. 20,000/=

Course will be limited to 35 persons per batch

Key sessions

- ◉ Methodologies for development research in a multi-disciplinary framework
- ◉ Qualitative and quantitative approaches and methodologies
- ◉ Applying two software packages – NVivo and SPSS
- ◉ Designing and formulating research projects and proposals, writing analytical reports
